

Ready For Your Campers

Friday, 6-18

With every counselor placed in their role for the summer, the entire Banner staff is excited for camp to begin!

The staff met in their specific age-level groups to prepare for camp. Each group went over new programs and discussed what a week of camp is like. They also exchanged ideas and got tips and advice from previous counselors who worked in their positions.

Every group is unique and specific in its own way, so each age-level training is different too!

Being The Best On The Bus

It takes the campers to and from camp, but the bus is also a fun time on its own! The camp program begins when the first camper gets on the bus.

Bus supervisors have been running through bus procedures with the staff. Today, supervisors discussed bus safety, including how to safely welcome kids to camp.

Some staff members role played as campers as they practiced getting on and off the bus to simulate everyday bus loading and unloading procedures as well.
